

DAVID JAISON RAJ L

AI Engineer | Software Developer

+91 6382990743 | davidjaison2k4@gmail.com | LinkedIn | LeetCode | Portfolio

Professional Summary

AI Engineer and Software Developer with hands-on experience in Machine Learning, Full-Stack Development, and Data Analytics. Proficient in Python, Java, SQL, TensorFlow, and React.js, with a strong focus on building scalable, data-driven applications. Recognized for problem-solving skills, adaptability, and collaborative contributions across academic and project-based environments.

Education

Karunya Institute of Technology and Sciences

B.Tech in Artificial Intelligence and Data Science — CGPA: 7.87/10

Coimbatore, India

Aug 2022 – May 2026

Relevant Coursework: Machine Learning, Data Science, Full Stack Development

Skills

- Programming Languages:** Python, Java, SQL
- Machine Learning & Tools:** TensorFlow, Scikit-learn, Pandas, OpenCV, Power BI
- Web Development:** HTML, CSS, JavaScript, React.js, Node.js
- Backend & Databases:** Flask, MySQL, PostgreSQL, MongoDB
- Software Engineering:** Object-Oriented Programming, Selenium, Git, Docker
- Core Competencies:** Problem Solving, Team Collaboration, Adaptability, Fast Learning

Internship Experience

ElSystems Technologies

Data Science Intern

Remote

2024

- Diabetes Prediction Model:** Built a machine learning model for early prediction of diabetes using medical datasets.
- ML Techniques:** Applied data preprocessing, feature selection, Random Forest, and Logistic Regression for model evaluation and performance improvement.

Projects

Student Face Detection for Attendance

Technologies: Python, OpenCV

- Automation:** Developed a real-time face detection system to automate student attendance using webcam input.
- Efficiency:** Reduced manual attendance errors and improved operational efficiency.

Emotion-Aware Chatbot – GenAI Hackathon Project

Technologies: Python, GPT-2.0, Emotion API

- **Generative AI Chatbot:** Built an intelligent chatbot capable of detecting user emotions and responding contextually.
- **Sentiment Integration:** Integrated sentiment analysis APIs to generate emotionally aware responses.
- **Achievement:** Secured 3rd Prize in the Gen-AI Hackathon at Karunya University.

Cloud-Based Blog Platform

Technologies: Django, HTML, CSS, JavaScript, Render

- **Full Stack Development:** Developed a scalable blog platform with authentication, CRUD operations, and REST APIs.
- **Deployment:** Deployed frontend and backend on Render with GitHub-based CI/CD integration.

Indian Food Calorie Prediction Using Deep Learning

Technologies: TensorFlow, CNN, Python

- **Deep Learning Model:** Created a CNN-based food recognition system that predicts food items and estimates calorie values from images.
- **Application:** Designed for meal tracking and fitness-oriented diet planning applications.

AQI Prediction System – MLOps Project

Technologies: Python, Flask, XGBoost, GitHub, Vercel

- **Machine Learning:** Developed an AQI prediction system using environmental datasets and optimized the XGBoost model for accurate predictions.
- **Web Integration:** Built a Flask-based web application for real-time AQI prediction using user-provided data.
- **Deployment:** Managed version control with GitHub and deployed the application on Vercel following MLOps practices.

Multi-Modal Cyber Threat Detection in Screen Recordings

Technologies: PyTorch, CLIP, EasyOCR, OpenCV, Dempster-Shafer Theory

- **Research Framework:** Developed a multi-modal cyber threat detection framework using visual, textual, and behavioral signals from screen recordings.
- **AI Integration:** Implemented CLIP-based threat classification and OCR-based semantic analysis.
- **Fusion Strategy:** Applied Dempster-Shafer evidence fusion with cross-modal attention for improved threat detection reliability.

Certifications

- PCAP: Programming Essentials in Python – Cisco Networking Academy
- Java Programming Fundamentals – Infosys SpringBoard
- Data Analytics Essentials – Cisco Networking Academy
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Microservices and CI/CD Pipeline Builder – AWS Academy Graduate
- Getting Started with DevOps – AWS Skill Builder
